Subject: Request to Conduct TARRL Amateur Radio Demonstration during *Philo Prathiba* and *JOTA–JOTI 2025*

Respected Sir,

I am **Vaibhav V K Naik**, a student of our college and also a licensed amateur radio operator (Callsign: VU3ZNL). I currently serve as the **President of TARRL – Tulunadu Amateur Radio Relay League**, a registered NGO working to promote technical education, HAM radio awareness, and emergency communication in our region.

Through this letter, I kindly request your permission to conduct an **amateur radio demonstration** under TARRL during our annual fest *Philo Prathiba*, and again during the global **JOTA–JOTI 2025** event in October.

The goal of the session is to introduce students to the basics of wireless communication, Morse code, and how amateur radio helps during disasters. It'll be a hands-on, engaging event led by licensed TARRL members.

We also request permission for our **TARRL Media Team** to be present to document the event and create educational content (with due credit to the college). A few technical volunteers will also assist.

Please note:

- This event is organized officially by TARRL to ensure recognition, professionalism, and transparency.
- **There will be no charges or fees** of any kind.
- We'll use our own **5G-based setup** for streaming services
- We believe this will be a meaningful learning experience for everyone, and I'd be truly grateful for your support and approval.

Thanking you,

Vaibhav

Yours faithfully,
Vaibhav V K Naik
